

FCE

First Certificate in English Level B2 in the CEFRL

Advantages of the language certificate F.C.E.

The FCE is internationally recognised, both commercially and academically and is accepted as a 'guarantee' of the ability of an individual to an autonomous level of English. The Cambridge Language Certificate can be a necessary qualification to add to a C.V. for your work career.

Information about the FCE

From January 2015, FCE consists of 4 tests, and each makes up 25% of the final evaluation score. There are 3 levels of results – A, B or C. The FCE is only issued to candidates who have obtained one of these scores. To pass the tests, you must receive a confirmation of the marks obtained in the exam along with a certificate sanctioning this.

The reason why this course is not for those that are far from the target level, is due to the number of hours allocated to the training in the strategies of listening, writing, reading and oral interaction that are required to pass the test.

Instructor

The course will be held by Roberto Cuccu, a language teacher who has published several scientific articles on strategies to use in order to help learners to learn according to their own learning style and face the difficulties one may encounter.
